## FINANCE ACCOUNTS

1987-88

#### Certificate of the Comptroller and Auditor General of India

This compilation containing the Finance Accounts of the Government of Sikkim for the year 1987-88 presents the accounts of the receipts and outgoings of the Government for the year, together with the financial results disclosed by the revenue and capital accounts, the accounts of the public debt and the liabilities and assets as worked out from the balances recorded in the accounts. The Appropriation Accounts of the Government for the year for Grants and Charged Appropriations, presented separately, supplement this compilation.

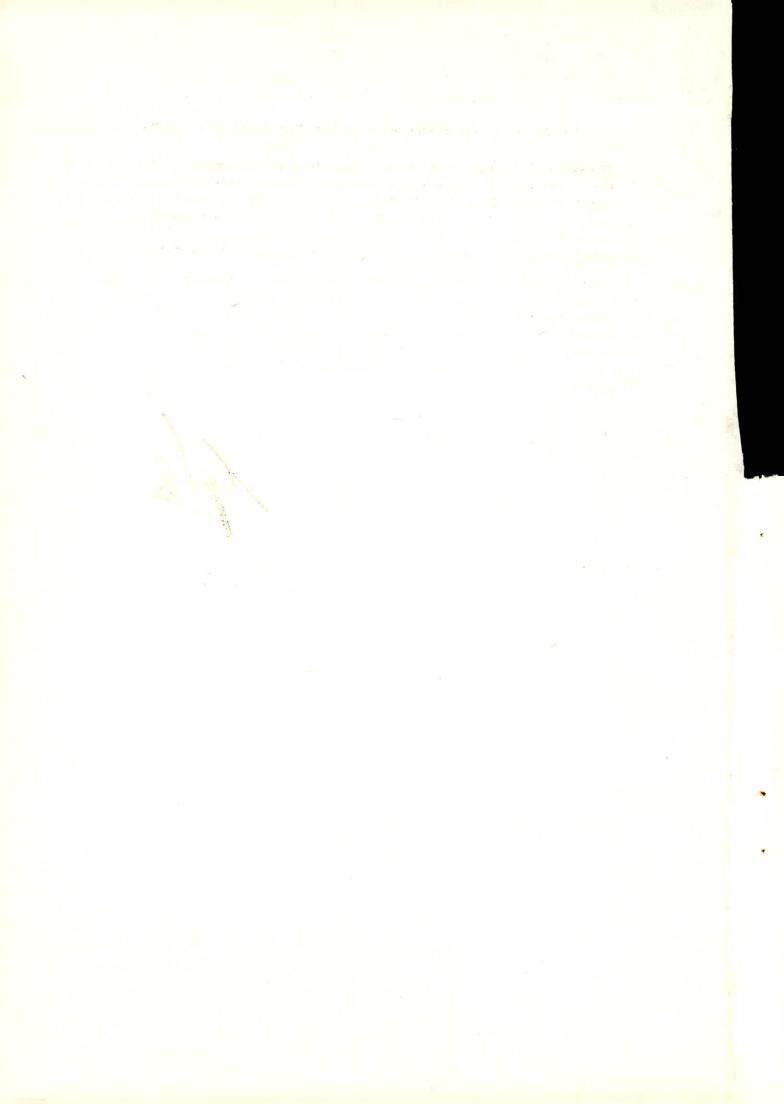

These accounts have been prepared and examined under my direction in accordance with the requirements of Articles 149 and 151 of the Constitution of India and the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971. Subject to the observations in this compilation and to those in my Report on the Accounts of the Government of Sikkim for the year 1987-88, the accounts now presented are according to my information, correct statements of the receipts and outgoings of the Government of Sikkim for the year 1987-88.

NEW DELHI,

The

(C. G. SOMIAH)

Comptroller and Auditor General of India

#### INTRODUCTORY

1. The accounts of Government are kept in the following three parts:

Part I-Consolidated Fund

Part II—Contingency Fund

Part III—Public Account

In Part I, namely Consolidated Fund, there are two main divisions, viz.—

- (1) Revenue—consisting of sections for 'Receipt Heads (Revenue Account)' and 'Expenditure Heads (Revenue Account)';
- (2) Capital, Public Debt, Loans, etc.—consisting of sections for Receipt Heads (Capital Account), Expenditure Heads (Capital Account)' and Public Debt Loans and Advances, etc.;

The Revenue division deals with the proceeds of taxation and other receipts classed as revenue and the expenditure met therefrom, the net result of which represents the revenue surplus or deficit for the year.

In Capital division, the section 'Receipt Heads (Capital Account)' deals with receipts of capital nature which cannot be applied as a set-off to capital expenditure.

The section 'Expenditure Heads (Capital Account)' deals with expenditure met usually from borrowed funds with the object of increasing concrete assets of a material and permanent character. It also includes receipts of a capital nature intended to be applied as a set-off against expenditure.

The section 'Public Debt, Loans and Advances, etc.' comprises loans raised and their repayments by Government such as 'Internal Debt' and 'Loans and Advances' made (and their recoveries) by Government. The section also includes certain special types of heads for transactions relating to Appropriation to the 'Contingency Fund' and 'Inter-State Settlement.'

In Part II, namely Contingency Fund, of the Accounts, the transactions connected with the Contingency Fund established under Article 267 of the Constitution of India are recorded.

In Part III, namely Public Account, of the accounts, the transactions relating to 'Debt' (other than those included in Part I), 'Deposits', 'Advances', 'Remittances' and 'Suspense' are recorded. The transactions under 'Debt', 'Deposits' and 'Advances' in this part are those in respect of which Government incurs a liability to repay the moneys received or has a claim to recover the amounts paid, together with the repayments of the former ('Debt' and 'Deposits') and the recoveries of the latter ('Advances'). The transactions relating to 'Remittances' and 'Suspense' in this part embrace all merely adjusting heads under which appear such transactions as remittances of cash between treasuries and currency chests, transfers between different accounting circles, etc. The initial debits or credits to these heads will be cleared eventually by corresponding receipts or payments either within the same circle of account or in another account circle.

#### 2. Sectors and heads of Accounts—

Within each of the sections in Part I mentioned above the transactions are grouped into sectors, such as 'Tax Revenue', 'Non-Tax Revenue', and Grants-in-aid and contribution' for the receipt heads (Revenue Account), and 'General Services', 'Social Services', 'Economic Services', and 'Grants-in-aid and contributions' for expenditure heads Specific functions or services (such as Education, Sports, Art and Culture, Health and Family Welfare, Water Supply, Sanitation, Housing and Urban Development, etc., in respect of Social Services) are grouped in sectors for expenditure heads. In Part III (Public Account) also, the transactions are grouped into sectors, such as 'Small Savings', 'Provident Funds', 'Reserve Funds', etc. The sectors are sub-divided into major heads of account. In some cases, the Sectors are, in addition, sub-divided into sub-sectors before their division into major heads of account.

The major heads are divided into minor heads, with a number of subordinate heads, generally known as sub-heads. The sub-heads are further divided into detailed heads. Under each of these heads, the expenditure is shown distributed between charged and voted. Sometimes major heads are also divided into sub-major heads before their further division into minor heads. Apart from the Sectoral and Sub-sectoral classification the Major Heads, Sub-Major Heads, Minor Heads, Sub-Heads, Detailed Heads and Object-Heads together constitute a six-tier arrangement of the classification structure of the Government Accounts. The major, minor and sub-heads prescribed for the classification of expenditure in the general accounts are not necessarily identical with the Grants, sub-heads and other units of allotments which are adopted by the Government for Demands for Grants presented to the Parliament or Legislatures but in general a certain degree of correlation is maintained between the demands for Grants and the Finance Accounts.

The major heads of accounts, falling within the sectors for expenditure heads, generally correspond to functions of Government, while the minor heads, subordinate to them, identify the programmes undertaken to achieve the objectives of the function represented by the major heads. The sub-head represents the scheme, the detailed head the sub-scheme and object head the object level of classification.

#### 3. Coding Pettern

#### MAJOR HEAD

From 1st April 1987 a four digit Code has been allotted to the major head, the first digit indicating whether the major head is a Receipt Head or Revenue Expenditure Head or Capital Expenditure Head or a Loan Head.

The first digit of code for Revenue Receipt head is either '0' or '1'. Adding '2' to the first digit code of the Revenue Receipt head will give the number allotted to corresponding Revenue Expenditure head, adding another '2', the Capital Expenditure head; and another '2', the Loan head of Account. For example, for Crop Husbandry code 0401 represents the Receipt head, 2401, the Revenue expenditure head, 4401, Capital Outlay head, and 6401, Loan head.

Such a pattern is however, not relevent for those departments which are not operating Capital/Loan heads of accounts e.g. Department of Supply. In a few cases, where receipt and expenditure are no heavy, certain functions have been combined under a single major heads, the functions themselves forming Sub-Major heads under that Major head.

#### SUB-MAJOR HEADS

A two digit code has been allotted, the code starting from 01 under each Major Head. Where no sub-major head exists it is allotted a Code '00'. The nomenclature 'General' has been allotted Code '80' so that even after further sub-major heads are introduced the Code for 'General' will continue to remain the last one.

#### MINOR HEADS

These have been allotted a three digit code, the codes starting from '001' under each sub major/major head (where there is no sub-major head). Codes from '001' to '100' and few codes '750' to '900' have been reserved for certain standard minor heads. The coding pattern for minor heads has been designed in such a way that in respect of certain minor heads having a common nomenclature under many major/sub-major heads, the same three digit code is adopted as far as possible.

Under this scheme of codification, the receipt major head (Revenue account) are assigned the block numbers from 0020 to 1606, expenditure major heads (Revenue account) from 2011 to 3606, expenditure major heads (Capital account) from 4046 to 5475, major heads, under 'Public Debt' from 6001 to 6004 and those under 'Loans and Advances', 'Inter-State Settlement' and 'Transfer to Contingency Fund' from 6075 to 7999. The code number 4000 has been assigned for capital receipt major head. The only major head 'Contingency Fund' in "Part II—Contingency Fund" has been assigned the code number 8000. The major heads in the Public Account are assigned the code numbers from 8001 to 8999.

- 4. The transactions included in these accounts represent mainly the actual cash receipts and disbursements during the financial year April to March as distinguished from amounts due to or from Government during the same period. The cash basis system is, however, not entirely suitable for recording the transactions and presenting the true state of affairs of Government commercial undertakings run on commercial principles. The detailed accounts of this class of undertakings are, therefore, maintained outside the regular accounts in proper commercial form and are subject to test check by the Indian Audit and Accounts Department.
- 5. The figures of actuals shown in these accounts are net, after taking into account the recoveries, although the Demands for grants presented to the Legislature and the Appropriation Accounts are for gross expenditure and exclude credits and recoveries which are otherwise taken as reduction of expenditure.
- 6. As mentioned in paragraph 7 of Introductory to Finance Accounts 1975-76, the opening balances under Debt, Deposit and Remittance heads as on 26th April 1975 were adopted on the basis of information collected from the records maintained by the State Government Departments. These balances are under reconciliation.

#### Explanatory Notes :--

- 1. Under an agreement made in the year 1968-69, the State Bank of Sikkim, established in that year, has been vested with the responsibility of receiving money on behalf of Government, making all Government payments and keeping custody of the balances of Government in Current Account as well as in fixed deposits that may be made through the branches of Bank. The balance held with the State Bank of Sikkim on 31st March, 1988 amounted to Rs. 2,86.41 lakhs as per this office record. But as per the record of State Bank of Sikkim, the Cash Balance was Rs. (—) 56.97 lakhs. The discrepancy of Rs. 3,43.38 lakhs is under reconciliation.
- 2. The Cash balance represents the combined balances of Consolidated Fund, Contingency Fund and Public Account.
- 3. The investments held in the Cash Balance Investment Account were partly in fixed deposits with the State Bank of India (Rs. 3.17 lakhs) at Darjeeling and with the State Bank of Sikkim (Rs. 4,26.11 lakhs).
- 4. Details of investments out of earmarked funds are given in Statement No. 18.

<sup>(</sup>a) Reasons for credit Balance is under investigation.

#### Explanatory Notes :-

1. The significance of the term 'Government Account' is explained in Note 3 below:

The other headings in the Summary take into account the balances under all account heads in Government books about which Government has a liability to repay the money or has a claim to recover the amount paid and also heads of account opened in the books for adjustment of remittance transaction. It must be understood that these balances cannot be regarded as a complete record of the financial position of the Government of Sikkim as these do not take into account all the physical assets of the State, such as lands, buildings, communication, etc., nor any accrued dues of outstanding liabilities which are not brought to account under the Cash basis of accounting followed by Government.

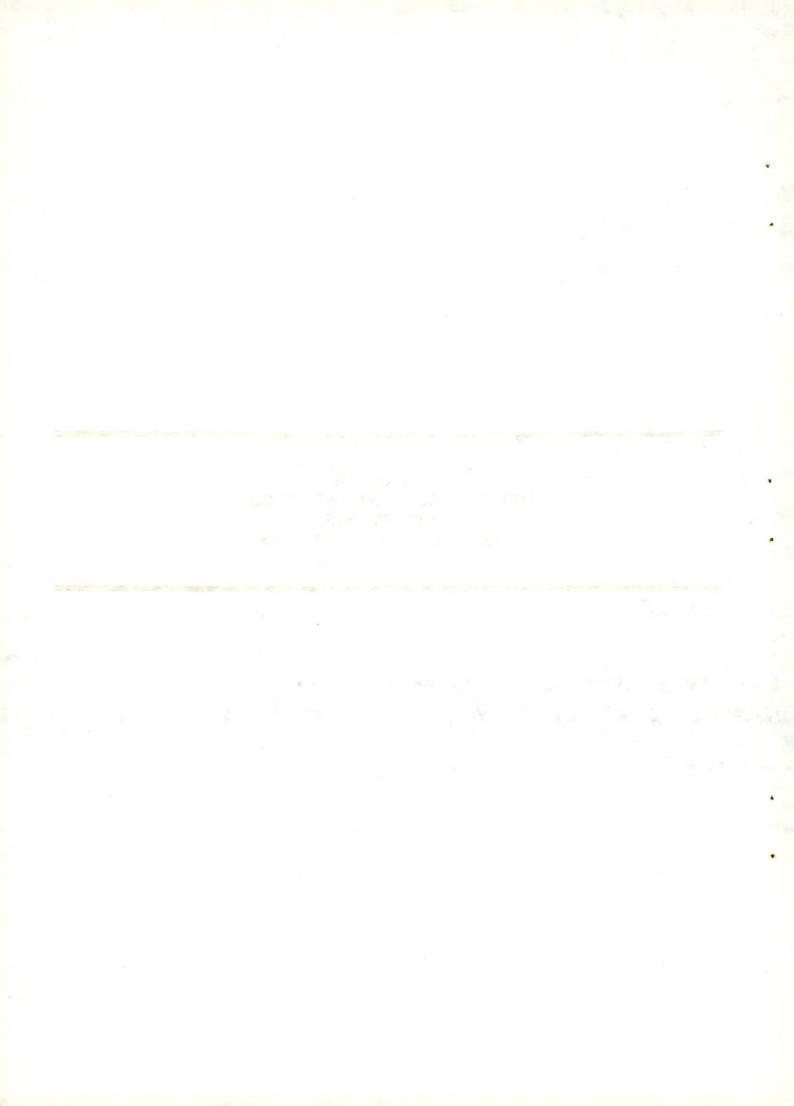

2. A summary of receipts, Disbursements and balances under Debt, Contingency Fund and Public Account is given in statement No. 15.

#### STATEMENT No. 7—Concld.

3. Government Account: Under the system of book-keeping followed in Government Accounts, the amounts booked under revenue, capital and other transactions of Government, the balances of which are not carried forward from year to year, are closed to a single head called 'Government Account'. The balance under this head represents the cumulative result of all such transactions so that after adding thereto the balances under Public Debt, Loans and Advances, Reserve Funds, Deposits and Advances, Suspense and Miscellaneous, Remittances and Contingency Fund, the closing cash balance at the end of the year may be worked out and proved. The "Government Account" for the year 1987-88, given below will show how the net amount at the end of the year has been arrived at.
