### Finance Accounts of the Government of Madras for the year 1941-42 and the Report of the Auditor General of India.

Certificate of the Auditor General of India.

This compilation containing the Finance Accounts of the Government of Madras for the year 1941-42 and the report of the Auditor General of India presents the accounts of the receipts and outgoings of the Government of Madras for the year, together with a report on the financial results disclosed by the different accounts and other data coming under examination, that is to say, both the revenue and capital accounts, the accounts of the public debt and the liabilities and assets of the Government of Madras as deduced from the balances recorded in its books and other information, It supplements the report of the Auditor General of India on the accounts of the audited expenditure of the Government for the year, separately presented in the form of Appropriation Accounts for each Grant. In compliance with Section 169 of the Government of India Act, 1935, the Auditor General's report on the accounts accompanied by the accounts themselves is submitted by the Auditor General to His Excellency the Governor to be laid before the Legislature.

The Accounts for 1941-42 which as Auditor General I am required to audit, both the Finance Accounts and the Appropriation Accounts, have been examined under my direction by the Accountant General, Madras, in accordance with the provisions of the Government of India (Audit and Accounts) Order, 1936. Likewise, as prescribed by Section 170 of the Government of India Act, 1935, the accounts of transactions of the Government in the United Kingdom have been audited by the Auditor of Indian Home Accounts under my general superintendence. It is to be noted that the Auditor General's responsibility for the audit of the accounts of the Government does not extend in full to the audit of the accounts of revenue, but I am satisfied on the best information available that the accounts of revenue included in the Finance Accounts herewith presented give a correct statement of the sums brought to account. Subject to these observations and also to those contained in the detailed reports which follow and in the report on the Appropriation Accounts, the accounts now presented are correct statements of the receipts and outgoings of the Government of Madras for the year 1941-42.

SIMLA;The 22nd February 1943.

A. C. BADENOCH. Auditor General of India.

### A. GENERAL FINANCE ACCOUNTS.

### I.—REPORT.

### INTRODUCTORY.

- 1. Main Divisions of Accounts.—There are four main divisions of Government accounts:—
  - (1) Revenue.
- (3) Debt.

(2) Capital.

(4) Remittance.

The first division deals with receipts from taxation and other sources of revenue and the expenditure therefrom, the net result of which represents the revenue surplus or deficit for the year. The second division deals with expenditure met usually from borrowed funds with the object either of increasing concrete assets of a material character or of reducing future recurring liabilities, such as those for future pensions by payment of the capitalised value. It also includes receipts of a capital nature which can properly be applied as a set-off to capital expenditure. The third division comprises receipts and payments in respect of which Government incurs a liability to repay the money received or has a claim to recover the amounts paid, together with repayments of the former and recoveries of the latter. The fourth and last division embraces all merely adjusting heads: e.g., cash remittances from one treasury to another, transfers between different accounting circles and remittances between India and England. Credits and debits taken to the adjusting heads in the first instance are cleared eventually by adjustment under final heads.

The transactions included in these accounts represent mainly the actual cash receipts and disbursements during the financial year April to March, as distinguished from amounts due to or by Government during the same period. The cash basis system is, however, not entirely suitable for recording the transactions and presenting the true state of affairs of Government commercial undertakings run on commercial principles. The detailed accounts of this class of undertakings are therefore maintained outside the regular accounts in proper commercial form and these accounts are subjected to a suitable audit check by the Indian Audit Department.

2. Sections and Heads of Accounts.—Within each of the four divisions mentioned above, the transactions are grouped into Sections which are further subdivided into Major heads of Account. The Sections are distinguished by letters of the alphabet, a single letter denoting the revenue portion and a double letter denoting the capital portion of a particular category of transactions, e.g., Section A denotes the revenue (and expenditure) grouped as "Principal Heads of Revenue" and Section AA denotes the capital

expenditure on works connected therewith. The Major heads in the Revenue and Capital divisions are numbered serially, Roman numerals being employed on the receipt side and Arabic on the disbursement side. No numbering is adopted for debt and remittance heads, though these are also arranged in Sections.

The Major heads are subdivided into Minor heads and the Minor heads into Sub-heads and Detailed heads. Under each of these heads, the expenditure is shown distributed between charged and authorised. The Major, Minor and Sub-heads prescribed for the classification of expenditure in the general accounts are not necessarily identical with the Grants, Sub-heads and other units of allotments which are selected by the Finance Department for Demands for Grants and the Appropriation Accounts; but in general, a certain degree of correlation is maintained between the Demands for Grants and the Appropriation Accounts on the one hand and the Finance Accounts on the other.

3. Balances and Reserves.—The accounts work from balance to balance, these balances working up to the general cash balances, a portion of which is kept in the treasuries within the Province while the rest is deposited with the Reserve Bank of India. Apart from these cash balances are the Cash Balance Investment Account and other special Reserves invested outside the general cash balance of Government. Most of these Reserves are invested in treasury bills and other short-term securities of the Central Government.

(Throughout this part of the report the amounts shown represent thousands of rupees unless the contrary is specifically indicated.)

### REVENUE RECEIPTS.

(i) The increase of 1,33,45 in the revenue receipts is the net result of a rise of 1,55,31 under certain heads and a fall of 21,86 under others. The more important variations are explained below:—

### Rise in Revenue.

Head of account.

Main reasons.

IV. Taxes on Income other than Corporation Tax (+47,10). Increase in the share assigned to Madras owing to improvement in the income-tax receipts.

VII. Land Revenue (+ 11,89):

Better collections due to favourable seasonal conditions.

VIII. Provincial Excise (+ 32,50).

Mainly larger consumption of country spirits (15,10), country fermented liquor (11,98) and wines and spirits, opium and hemp and other drugs (3,95).

IX. Stamps (+ 7,09)

Chiefly larger realizations from the sale of non-judicial stamps (+8,87) partly offset by decrease under "Court fees realized in stamps" (-2,28).

X. Forest (+ 8,95)

Chiefly due to larger sales of timber, realization of better prices than originally anticipated in respect of sandalwood, charcoal and timber coupes sold, (8,45) and recovery from the War Supply department of the pay and allowances of the staff employed from 1939-40 to 1940-41 in connection with the passing of timber for war purposes.

XI. Registration (+ 2,14) ...

Mainly due to an increase in the number of registrations.

XIII. Other Taxes and Duties (+ 1,38).

Increase in collections under Taxex & on luxuries (2,44), Electricity duties (50), and General Sales Tax (7,02) partly offset by decrease in receipts from Tobacco duties owing to shipping difficulties (3,22), Taxes on the sale of motor spirit due to Petrol Rationing Order (2,10) and larger refunds than anticipated (3,20).

XXI. Administration of Justice (+ 3,85).

of Due mainly to the abn rmal increase in the realizations under "General fees, fines and forfeitures".

XXII. Jails and Convict Settlements (+ 2,04). Larger sales of jail manufactured articles,

### Rise in Revenue—cont.

Head of account.

Main reasons.

XXXII. Industries (+2,84). Mainly due to larger orders received from the Medical Stores Depot for the supply of silkworm ligature guts, etc., larger receipts from the pumping and boring activities of the department and contribution from the Central Government towards the training. of war technicians in the Industrial Schools.

XLI. Receipts from Electricity Schemes (Net) (+30,21).

Chiefly due to decrease in working expenses on account of the transfer of the value of stock of electricity stores, etc., to the Capital Account.

XLVI. Miscellaneous (+ 1,76). Mainly larger expenditure on rural reconstruction works financed from the grant of the Central Government and the consequent increase in the amount transferred to Revenue from Deposits.

### Fall in Revenue.

the XII. Receipts under Motor Vehicles Acts (-2,03).

Fall in the number of motor vehicles paying tax owing to war conditions and rationing of petrol.

XVII. Irrigation, Naviga-Embankment and Works for Drainage which Capital Accounts are kept (-3,41).

Chiefly increase under working expenses due to improvements to and silt clearance in the Buckingham canal.

XVIII. Irrigation, Naviga-Embankment and Drainage Works- for which no Capital Accounts are kept (-1,32).

Less receipt of land revenue due to irrigation works.

XXXIX. Works Smaller expenditure on works fin an-Civil (-14,18).ced from Central Road Fund.

DEBT, DEPOSIT AND REMITTANCE HEADS—RECEIPTS.

(ii) The important variations are explained below:— Head of account. Main reasons.

Floating Debt (— 4,21,00). Treasury bills were issued for -crore and ways and means advances taken for Rs. 3.29 crores against the budget provisions of Rs. 4.50 crores and Rs. 4

crores respectively.

decrease under General Provident Funds Mainly Provident Fund. (-2.80).

Head of account.

### Main reasons.

avoidance of debt (+28,84).

Appropriation for reduction (i) Vide explanation against "23. Appropriation for reduction or avoidance of debt "in sub-paragraph (iv) below, (ii) due also partly to the adjustment of interest realized from the investment of the balances in the Sinking Fund (45).

Fund Road Provincial (+9.33).

Creation of a Provincial Road Fund during the year for crediting the balance of grants due to local bodies in a particular year but left undrawn by them in that

Fund Revenue Reserve (-36,00).

Vide explanation against "64-A. Transfers to Revenue Reserve Fund" in sub-paragraph (iv) below.

Funds Other Reserve (+14,22).

Chiefly due to a contribution from revenue of Rs. 10 lakhs to the Fund for the development of rural water supply and increased contribution from Revenue on a revised basis to Depreciation Reserve Fund for Electricity, (+3,59).

Deposits of Local Funds (+74,17).

Mainly increased receipts under District Board Funds (64,09), Municipal Funds (4,43), and Port and Marine Funds (4.81).

Civil Deposits (+ 1,01,48) ...

Chiefly increased receipts under (i) Personal Deposits (66,95) due to an increase in the amount of cash orders issued by treasuries, (ii) Civil Court Deposits (42,67) and (iii) Revenue Deposits (8,75) partly offset by decrease in the receipts under Viceroy's Purposes Fund (18,96).

Other Accounts (- 9,12) ...

Mainly decrease under Subventions from Central Road Fund (-12,68) partly offset by increase under Deposit Account of grants for economic development and improvement of rural areas (+2,62).

Suspense (+3,37,04)

increase under " Cash Balance Investment Account."

Remittances (+ 79,66)

Mainly increase under (i) Public Works Remittances (70,24), (ii) Forest Remittances (2,14) and (iii) Miscellaneous Remittances (6,25).

### OPENING BALANCE (-4,69).

(iii) The decrease of 4,69 in the opening balance over the budget estimate for 1941-42 is due to the following variations between the actuals for 1940-4i and the revised estimates for that year :-

Increased revenue surp Decrease in capital				the the	47,95

### EXPENDITURE ON REVENUE ACCOUNT.

(iv) The total expenditure on revenue account exceeded the budget estimate by 58,24. This was the result of an increase of 1,33,42 under certain heads and a decrease of 75,18 under others. The important variations are explained below:-

### Increase in Expenditure.

Head of account.

Main reasons.

23. Appropriation for Reduction or Avoidance of Debt (+28,39).

Due to contributions to the Sinking Fund on a higher scale and the adjustment of excess contributions payable to the fund on the revised basis in respect of previous years.

ments (+5,61).

28. Jails and Convict Settle- Chiefly increased charges under diet, clothing, bedding, etc., due to increase of prison population and larger expenditure on the purchase of raw materials.

29. Police (+ 6,12)

Due to temporary staff sanctioned owing to conditions created by war and for internal security and payment of dearness allowance to low paid Government servants and menials.

39. Public Health (+ 7,05).

Due to a contribution of Rs. 10 lakhs sanctioned during the year to the Fund for the Development of Rural Water-supply partly offset by smaller expenditure under Grants for public health purposes (-2,03), Expenses in connexion with epidemic diseases (-24) and Bacteriological laboratories (-51).

### Increase in Expenditure-cont.

### Head of account.

Main reasons.

- 43. Industries (+ 1,33) ... Mainly larger expenditure on fish liver oil industry, manufacture of ligature guts, purchase of stores for the Kerala Soap Institute and fish-curing operations.
- 54. Famine (+ 1,49) .. Due mainly to larger expenditure on famine relief operations and on relief of distress caused by floods and cyclone.
- 55. Superannuation Allow- Increase in the amount of pensions ances and Pensions paid.

  (+ 1,68).
- 56. Stationery and Printing Purchase of larger quantities of paper for printing electoral rolls at increased prices and general increase in the cost of all stationery articles.
- 57. Miscellaneous (+ 46,58).

  (i) Extension of Air Raid Precaution measures and the change in the basis of allocation of expenditure on these measures between the Central and Provincial Governments (26,72), (ii) contribution to local bodies for loss of income from tolls (15,72) and (iii) increased expenditure on Provincial War Committee and relief of distress among weavers (4,14).
- 53. Capital Outlay on Electricity Schemes (+ 30,00).

Transfer to the revenue account of a larger portion of capital outlay on electricity schemes.

### Decrease in Expenditure.

7. Land Revenue (— 4,48).. Mainly (i) smaller payment on account of assignments and compensations, due to the adoption of a revised procedure during the year (— 5,32) and (ii) smaller expenditure on survey operations (—1,35) partly counterbalanced by increased expenditure under Land Records (+ 1,77).

### Decrease in Expenditure—cont.

Head of account.

Main reasons.

- 8. Provincial Excise (-1,53). Mainly reduced expenditure on the purchase of opium (1.92) offset by increase in the amount of compensations paid to other Governments.
- 18. Other revenue expenditure financed from ordinary revenues (- 1,57).
- Smaller expenditure on maintenance charges and on flood repair works.
- 22. Interest on Debt and Other Obligations (-- 1.07).
- Decrease in the amount of interest paid on treasury bills and ways . and means advances due to the favourable rate of discount on the former and smaller amount of bills issued as well as ways and means advances taken from the Bank.
- 25. General Administration (-2,29).
- Mainly general elections Legislatures not having been held (4,35) partly offset by increased expenditure on works financed from the rural reconstruction grants of the Central Government (1,98) and on purchase and installation of radio sets (80).
- 38. Medical (- 1,65)
- Chiefly due to the appointment of the officers of the Provincial Medical Service on lower pay in the vacancies created by the reversion of I.M.S. officers to military duty.
- 50. Civil Works (- 20,20).
- Mainly (i) postponement of certain works due to shortages of iron and steel (6.50) and (ii) smaller expenditure on grants to local bodies for water-supply and drainage, etc., works (26.55) partly offset by increases on account of (i) contribution to Provincial Road Fund (9,33) and (ii) adjustment in the year of the cost of materials purchased at the close of 1940-41 and the transfer of surplus stock " 68 Cauvery-Mettur Project" to this head (2,81).

### Decrease in Expenditure-cont.

Head of account.

Main reasons.

64-A. Transfer to Revenue Reserve Fund (- 36,00).

Discontinuance of contribution to the Fund from 1941-42.

55-A. Commutation of pensions financed from ordinary revenues (- 1,48).

Due chiefly to excess of recoveries from other Governments over payments.

### CAPITAL EXPENDITURE OUTSIDE THE REVENUE ACCOUNT.

(v) The decrease of 43,57 was the net result of a fall of 43,85 under certain heads and an increase of 28 under '72. Capital Outlay on Industrial Development.' The reasons for the main variations are given below :-

Head of account.

Main reasons.

Navigation, etc., Works (-4.72).

68. Construction of Irrigation, Due to larger realizations by the sale of special tools and plant purchased for the Cauvery-Mettur Project.

81. Capital Account of Civil Works (- 6,53).

Postponement of some works on account of shortages of iron and steel and late commencement of other works due to delay in land acquisition and other causes.

81-A. Capital Outlay on Electricity Schemes (- 32,60).

Mainly (i) non-receipt of stores indented for (16,00), (ii) restriction on extension schemes due to war conditions (18,00) and (iii) adjustment of a portion of capital expenditure to Revenue Account (30,00), partly counter-balanced by an increase of 29.30 due to the transfer of the value of stock of electrical stores, etc., from the Revenue Account.

DEBT, DEPOSIT AND REMITTANCE HEADS-DISBURSEMENTS.

(vi) The reasons for the important variations are given below :-

Head of account.

Main reasons.

Floating Debt (-4,21,00) ... Vide explanation against "Floating Debt" under "Receipts" in sub--paragraph (ii) above.

State Provident Funds Withdrawals less than anticipated. (-5,20).

Head of account.

Main reasons.

Appropriation for Reduction or Avoidance of Debt (+ 53,62).

Mainly investment in securities of balances in the Sinking Fund amounting to 53,60 not anticipated in the budget.

Famine Relief Fund Increased investments in securities. (+1,15).

Other Reserve Funds (+ 14,80).

Increased investments in securities of balances in the Depreciation and Special Reserve Funds of the Pykara and Mettur Hydro Electric Systems.

Deposits of Local Funds (+ 50,61).

Chiefly larger transactions than anticipated under District Board Funds (48,07) and Port and Marine Funds (7,92) partly reduced by a decrease under Municipal Funds (4,69).

Civil Deposits (+ 63,06) ...

Increased payments under Personal Deposits due to an increase in the amount of eash orders paid by treasuries (48,44) and under Civil Court Deposits (31,30) partly offset by decreased payments under the Viceroy's War Purposes Fund (18,69).

Other Accounts (-11,13) ..

Chiefly smaller withdrawals from Subventions from the Central Road Fund (13,09) reduced by increased expenditure from the grant for Economic development and improvement of rural areas (1,98).

Advances not bearing interest (+ 8,29).

Mainly due to advances to Government servants for evacuation of families (3,32) and advances to the Triplicane Urban Co-operative Society for organization of food supply (4,10) not contemplated in the budget.

Suspense (+ 4,33,69)

Vide explanation against 'Suspense' under 'Receipts' in sub-paragraph (ii) above.

Head of account.

Main roons.

Miscellaneous (— 1.00) .. Due to smaller \*ecoveries arising from the operation of the Provincial Loan Account.

Provincial Government (-16,94).

Chiefly decrease in (i) the amount of short-term ban to the Central Land Mortgage Bank (—18,00) and (ii) advances granted to local bodies for road and water-supply • works (—4,91) and to cultivators (—2,72), partly counterbalanced by increase due to larger loans to local bodies to cover deficits (+8,13).

Remittances (+ 82,50)

Mainly increases under Public Works
Remittances (+ 73,54), Forest
Remittances (+ 1,75) and other
remittances (+ 6,20).

### CLOSING BALANCE (+ 38,61).

(vii) The increase of 38,61 in the closing balance as compared with the budget estimate is the net result of an increase of 75,21 in the revenue surplus, a fall of 43,57 in Capital Expenditure outside the Revenue account, a decrease of 75,48 in the net receipts under Debt, Deposit and Remittance Heads and a decrease of 4,69 in the opening balance.

### REVENUE POSITION OF GOVERNMENT-GENERAL REMARKS.

5. The budget for the year anticipated a revenue of 18,21,37 and an expenditure on revenue account of 18,08,62. The total revenue realized during the year, however, amounted to 19.54.82 resulting in an improvement of revenue by as much as 1,33,45, The largest contribution to this increase was the higher yield of income-tax which produced 47,10 more than the estimate. Large increases also occurred under 'Land Revenue' (1189) and 'Provincial Excise' (32.50) due to the general improvement in the economic condition of the agriculturists owing to the higher prices which they obtained for their produce and the concurrent increase in the earning power of the labouring classes is urban areas. Receipts from Electricity Schemes also brought in 3121 more than was provided in the budget, but the greater part of this increase was unreal as it was caused by the transfer of the blue of electricity stores, etc., to the capital account. Other nouble increases were 8,95 under 'Forests,' 7,09 under 'Stamp' 3,85 under

'Administration of Justice' and 2,84 under 'Industries.' The reasons for these increases have been explained in paragraph 4 (i) ante.

The total expenditure on revenue account amounted to 18,66,86 which was 58,24 more than the budget forecast. But for certain special items of expenditure detailed below, which were sanctioned by Government during the year owing to the favourable revenue position the expenditure would have been 35,20 less than the estimate:—

- (i) Contribution on a higher scale to the Sinking Fund for the amortization of loans raised for financing remunerative schemes (28,39).
- (ii) Contribution to the fund for the development of Rural Water-Supply (10,00).
- (iii) Additional grants to local bodies for the loss of income from tolls (15,72).
- (iv) Contribution to a newly created Provincial Road Fund (9,33).
- (v) Write-back of a portion of capital expenditure on Electrical Schemes to revenue (30,00).

The effects of the War and the gradual extension of the war zone were apparent in increased expenditure under 'Police' and 'Miscellaneous' amounting to 6,12 and 46,58 respectively. The increase under the former was necessitated by the additional duties imposed upon the police by the war conditions while the increase under the latter was mainly due to the extension of Air Raid Precaution measures to all the more important towns of the Province considered as vulnerable to attack. On the other hand there were also decreases of expenditure owing to war The appointment of Provincial Medical Service Officers in the place of Indian Medical Service Officers recalled to military duty brought about a saving of 1,65 under 'Medical' while the difficulties in procuring iron and bitumen resulted in the curtailment of Civil Works expenditure to the extent of 20,20.

The year closed with a surplus of 87,96 as against 52,75 in the previous year and 12,75 anticipated in the budget. This surplus would have been much greater but for the special items of expenditure referred to above. A part of the surplus was due to the increased yield of the Commercial Taxes. In previous years the surplus yield from these taxes had been funded for the purpose of enabling any future ministry to carry out policies of development including the extension of prohibition throughout the Province. It was, however, decided during the year to discontinue contributions to the Fund and to employ the surplus yield after meeting the cost of prohibition, towards increasing the Sinking Fund provision for the amortization of debts and discharging a standing obligation which in past years had to be deferred for want of funds.

### CAPITAL OUTLAY OUTSIDE THE REVENUE ACCOUNT.

Progressive capital outlay to end of the year.

6. The following table gives the progressive account of the capital expenditure outside the revenue account of the Government of Madras up to the end of 1941-42:—

Nature of expenditure.	Expenditure up to 1940-41.	Expenditure during 1941-42.	Total.

4. 81.A. Capital Outlay on Electricity Schemes.	5,88,75	3,76	Section 1
Total	24,63,57	10,99	24,74,56

The capital outlay recorded against items 1 to 4 was provided partly from borrowed funds and partly from balances. The sums provided from borrowed funds for these items were 15,81,44; 5,43; 29,02; and 3,24,66 respectively.

The entire outlay on items 1, 2 and 4 has been incurred on schemes expected to be remunerative with the exception of 2,67,96 under item 1 (i) and 49,62 under item 1 (ii) (b). The distribution of the expenditure included in items 1 and 4 among the several irrigation projects and electricity schemes and a review of their financial results will be found in the succeeding paragraphs.

The progressive expenditure under item 2 relates to the Cinchona Plantations, the Kerala Soap Institute and the Industrial Engineering Workshops. The expenditure during the year relates to the Cinchona Plantations.

Under item 3 is recorded expenditure on certain schemes of building works estimated to cost over 5 lakhs of rupees each such as "Comprehensive housing scheme for the Police" and "Remodelling the General Hospital, Madras".

\* Excludes 49,62 being the expenditure on special accelerated and widespread programme of improvements to minor irrigation works classed under "68-A. Irrigation—(2) Unproductive works" as no Capital and Revenue Accounts are kept for them.

The net profit during the year was 1.05 per cent. against 1.15 per cent. in the previous year. The slight fall is chiefly due to a decrease in the total revenue receipts by Rs. 0.89 lakh and an increase in the total working expenses

by Rs. 1.19 lakhs

7-A. Works in the Irrigation Department are classified as "Productive" or "Unproductive" according as the net revenue (gross revenue less working expenses) derived from each work on the expiry of ten years from the date of closure of the construction estimate covers or does not cover the prescribed annual interest charges on the capital invested. The productivity test involves some pro forma adjustments which do not appear on the face of the Government accounts. If a work classed as "Productive" fails to yield the prescribed return in three successive years, it is transferred to the "unproductive" class. Similarly if a work classed as unproductive succeeds in yielding in three successive years the prescribed return it is transferred to the "Productive" class. Productive canals in the Province continued to satisfy the conditions of productivity and to yield the relevant return on the capital invested during the year with the exception of items 2 and 14 under A (1) of the statement. Government have ordered the retention of item 2 in the "productive" class up to the end of 1942-43. In the case of item 14 they have directed that it may continue to be shown under the "productive" class as the fall in the return was due to transitory causes.

None of the "unproductive" canals was transferred to the "productive" class during the year.

### Financial Results of Electricity Schemes.

8. The Government electrical undertakings in the Madras Province comprise both Hydro-Electric and Thermo-Electric Schemes. They have been undertaken with the expectation that they will be remunerative, i.e., that the net revenue (gross revenue less working expenses including depreciation) derived from each scheme will cover the prescribed annual interest charges on the capital invested on the expiry of ten years from the date of the closure of the construction accounts. The abstract below shows the Capital and Revenue Accounts of the schemes for which Revenue Accounts have been opened—

<sup>(</sup>b) Fifth year of operation.

<sup>(</sup>c) Third year of operation.

<sup>(</sup>d) Second year of operation.

<sup>\*</sup>The minus figures are due to the transfer during the year of the stock and other suspense balances from the revenue to capital sections.

The net profit to Government (after meeting interest charges) in the year 1941-42 on account of the schemes was 8.48 per cent. on the capital invested to the end of the year, as against the net profit of 2.73 per cent. in the previous year. The increase is chiefly due to the transfer during the year of the stock and other suspense balances from the revenue sec ion to the capital section of the schemes under the orders of Government and growth in revenue. If the suspense balances had not been transferred from the revenue section of the accounts, the net profit would have been only about 3.5 per cent.

Expenditure on Important Capital Projects under construction.

9. Papanasam Hydro-Thermal Project.—The project has been sanctioned by Government at an estimated cost of Rs. 1,79,00,000.

The following statement gives a summary of the expenditure incurred on the Papanasam Hydro-Thermal Project under the various sub-heads, as against the estimates sanctioned technically so far. The project was commenced in May 1938 and is in progress:—

### COMMITMENTS.

10. In the Appendix to this compilation will be found a statement showing the extent to which the Government of Madras was committed at the end of 1941-42 to expenditure on works the cost of which is debitable outside the revenue account. It will be seen therefrom that the further liabilities in respect of these commitments which remain to be discharged after 1941-1942 amount to 2,22,61.

### DEBT POSITION-GENERAL STATEMENT.

11. The following statement sets forth the debt position of the Madras Government at the beginning and at the close of the year 1941-1942:—

	Amount		
Nature of Debt. (1)	On 1st April 1941. (2)	On 31st March 1942. (3)	Difference (+) or (-). (4)
Permanent Debt	5,20,28 7,32,33 4,23,54	5,12,18 7,25,92 4,37,89	$ \begin{array}{r rrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrrr$
Grand Total Rupee Debt	16,76,15	16,75,99	- 16
Deduct—Outstanding loans and advances made by the Provincial Government.	5,31,96	5,23,97	- 7,99
Net Debt	11,44,19	11,52,02	+ 7,83

It will be seen from the statement that there was an increase of 7,83 in the net indebtedness of Government at the close of the year. The increase was due to the addition of 14,35 to Unfunded Debt on account of increase of State Provident Fund balances and a reduction of 7,99 in the assets of the Province through the Provincial Loan Account partly offset by reductions of 8,10 and 6,41 under 'Permanent Debt' and 'Loans from the Central Government' respectively.

(i) Permanent Debt.—There was no fresh borrowing by Government during the year. On the other hand, loan to the extent of 8,10 was redeemed by purchase and cancellation of the securities of the Madras Government 3 per cent loans of 1952, 1953 and 1959. This redemption was entirely responsible for the decrease under this head.

The particulars of the loans raised in the open market by the Madras Government are given in the statement in paragraph 8 of the Report in Part B. It will be seen therefrom that the total amount of the loans raised so far was 5,34,83 and the balance of loan outstanding on the 31st March 1942 was 5,12,18. The proceeds of the loans were utilized for wholly productive capital expenditure and for loans to local bodies, agriculturists and others as shown below:—

Electricity Schemes		THE REAL PROPERTY.	14/47	2,87,73
Irrigation Works	***		1.7	20,03
Advances to local bodies,	agricult	turists, etc	4.4	2,27,07
		Total	100	5,34,83

In accordance with the notifications inviting applications for the open market loan; raise I by the Government, the following provision for the amortisation of each loan is made annually beginning with the financial year after that in which each of the loans was raised :-

- (i) Contribution to the Depreciation Fund.—A sum equal to 11 per cent of the total nominal value of the loan is set apart annualy for the purchase of securities of the loan for cancellation.
- (ii) General Sinking Fund.-In addition to the annual contributions to the respective Depreciation Funds, an annual contribution is also made to a General Sinking Fand for the amortisation of the loans. Having regard to the fact that the net earning power of the assets created by he greater portion of the loan funds is expected to exceed the interest on the debt and that Depreciation Reserve and Special Reserve Funds have been established for the Electricity Systems created out of the loan funds, a contribution to the General Sinking Fund which would not be sufficient to repay the outstanding portions of the loans in full on maturity was considered adequate and was made till 1940-41. Owing to the favourable revenue position in the year, the Government decided that the contribution to the General Sinking Fund be made, as a temporary measure, on a higher scale, according to which the accumulations in the General Sinking Fund (allowing for betterment) would be sufficient, if continued on that scale, to repay the undischarged balance of the loans in full on maturity. They also decided to adjust the excess contribution payable on this revised basis for all the loans from the years in which contribution was first made up to and including 1:41-42. Accordingly in the year u der review, the following amounts were adjust d towards contribution to the General Sinking Fund and Depreciation Funds :-

Particulars.		*	Loan Deprecia- tion Fund. (2)	General Sinking Fund. (3)	Total.
3 per cent. Loan, 1952-I issue			2,46	17,85*	20,31

3 per cent. Loan, 1959	••	1000	2,25	4,72‡	6,97
	Total		8,02	38,05	46,07

Includes a sum of 11,49 being the arrears of contribution for the previous years on the revised basis.
 † Includes a sum of 5,76 being the arrears of contribution for the previous years on the evised basis,

t Includes a sum of 1,39 being the arrears of contribution for the previous years on the evised basis.

Of the total amount of 46,07 set apart for Sinking Fund, a sum of 11,33 was met from the recoveries in the Provincial Loan Account. The amounts redeemed during the year out of the Depreciation Funds of the 3 per cent. loans 1952—I and II issues, 1953 and 1959 were 3.55; 2,30; and 2,25 respectively. A sum of 53,60 was invested during the year from the accumulated balances in the Sinking Fund. The investment was made in the 3 per cent. Defence Loan of 1949–1952 of the Central Government which will mature for payment before any of the Madras Government Loans mature. The interest of 45 which accrued on the investment in the year, was credited to the Fund.

- (ii) Loans from the Central Government.—The consolidated debt due to the Central Government is repayable in half-yearly instalments over a period of 45 years from 1937–38 to 1981–82 with interest at  $4\frac{1}{2}$  per cent. The Government have the option of redeeming between the 1st April 1945 and the 15th October 1946 any part not exceeding one-half of the principal of this debt outstanding on the 31st March 1945 and of redeeming between the 1st April 1960 and the 15th September 1961 the whole or any part of the remainder of the debt. The annual equated payment towards principal and interest in respect of this debt is 39,29 and was paid on the due dates during the year under report. The amount paid towards the principal was 6,41 of which 3,61 was met from revenue and 2,80 from recoveries in the Provincial Loan Account.
- (iii) Unfunded debt.—This comprises mainly the provident fund balances of Government servants and also includes a sum of 2,52 representing certain irredeemable loans and endowments.
- (iv) Loans and Advances made by the Provincial Government.—An analysis of the loans and advances disbursed by Government and outstanding on the 31st March 1941 and the 31st March 1942 is given below:—

			On 31st March 1941.	On 31st March 1942.
(i) Loans to local authorities			3,58,38	3,74,50
(ii) Advances to cultivators	**		1,16,42	1,09,88

(v) Loans to Government servants		**	45	35
(vi) Other Loans and Advances			8,03	6,99
and the second of the second o	Total		5,31,96	5,23,97

There was a decrease of 7.99 in the outstandings as compared with 1940-41 due to the recovery of 92,49 against the disbursement of 84.50 during the year. The decrease occurred chiefly under "Advances to Co-operative Societies and Land Mortgage Banks", "Advances to cultivators" and "Advances to Board of Commissioners for Hindu Religious Endowments" included in item (vi) due to the recoveries being greater than payments. An account of the transactions under Loans and Advances is given in Statement No. 5 of Part B of this compilation. The nature of the transactions is explained in paragraph 71 et seq of the report.

The recoveries of loans were generally normal with the exception of the loans under the Land Improvement and Agriculturists' Loans Acts and Loans to Scheduled Classes and Criminal Tribes settlements included under items (ii) and (vi) of the statement. The percentage of arrears to demand was 23 in the former at the end of June 1942 (fash year 1351) and 88 in the latter at the end of March 1942 as against 23 and 85 in the previous year.

The total amount written off as irrecoverable during the year was 21 as against 13 in the previous year.

(v) Debt Services.—The total net charge on the revenues of the Province during the year on account of the service of the debt was \$1,57 as shown below:—

(i) Contribution to the Sinking Funds	46,07
(ii) Interest on open market loans	15,66
(iii) Discount, brokerage, etc., on the loan raised in the open market during the year and miscella- neous charges connected with the management	
of debt	12
(iv) Interest on floating debt	35 /
(v) Interest on certain irredeemable loans	11
(vi) Equated payment towards the consolidated debt due to the Central Government	39,29
(vii) Interest on State Provident Fund balances	16,23

Deduct—	
	- 14,13
(2) Interest accrued to the Provincial Government through the Provincial Loan Account	- 22,13 /

This works out to about 4 per cent. of the annual revenues of the Province.

<sup>\*</sup> The bank balance shown in column (7) represents the balance according to the Government accounts.

Under an agreement with the Reserve Bank of India, the Government of Madras have to maintain a minimum balance of Rs. 40 lakhs at the Bank. The Bank informs the Government by telegram of their daily balance with the Bank at the close of each working day. If this balance falls on weekly settling days below the agreed minimum, the deficiency is made good either by taking a "Ways and Means" advance from the Reserve Bank or by selling treasury bills to the public. The receipts and disbursements shown in the above statement include "Ways and Means" advances and treasury bills and their repayment.

The statement below gives the particulars of the treasury bills issued during the year:—

D	ate of	issue.	2		Period. (2)	Face value.

19th November 1941			 **	14.4	33	50,00
	4		Total		1.	1,00,00

All the bills were discharged within the year. The total amount of discount on the bills was 19. The average rate of discount on the bills was Re. 0-12-0 per cent. per annum as against Re. 0-12-9 per cent. per annum in the previous year.

The total amount of ways and means advances taken during the year from the Reserve Bank was 3,29,00. All the advances were paid before the close of the year and the interest paid on them amounted to 16. The periods for which the advances were taken ranged between 7 days and 15 days and the rate of interest was 2 per cent. per annum.

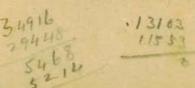

Besides the cash balance of 1,05,87 held at the end of the year, the Government possessed resources in the shape of investments in treasury bills and other securities of the Central Government and in their own securities. With the exception of certain securities earmarked for specific purposes, these investments are accounted for under the suspense head "Cash Balance Investment Account." The total investments held by Government at the beginning and end of the year under report were as follows:—

			On 1st April 1941.	On 31st March 1942.

Earmarked investments	**		88,08	1,73,23
	Total	3.00	3,82,56	5,22,39

The interest realized during the year on the Cash Balance Investment Account was 1,31.

The year opened with a balance of 4,36,29 (cash 53,73; investments 3,82,56) and closed with a balance of 6,28,26 (cash 1,05,87; investments 5,22,39). These balances include certain amounts earmarked for specific purposes, the details of which are given in the tabulated statement at the end of this paragraph. Excluding these earmarked amounts the opening and closing balances were 2,17,18 and 3,39,50, respectively. There was thus an increase of 1,22,32 in the unearmarked balance which is arrived at as shown below:—

(1) Additions to the balance—

#### SUMMARY OF GENERAL FINANCIAL POSITION.

14. The main feature of the year was the improvement of the revenue position of Government which resulted in a surplus of 87,96 as against the surplus of 12,75 anticipated in the budget. This large improvement which was in the main, due to the higher yield of income-tax and larger receipts from 'Land Revenue' and 'Provincial Excise,' chiefly accounted for the increase in the cash

balance of the Province from 53,73 at the commencement of the year to 1,05,87 at the end of the year. There was a slight increase of 7,83 in the net indebtedness as compared to the previous year due mainly to the increase of State Provident Fund balances. No fresh loan was raised during the year in the open market. On the other hand, in respect of the existing loans, contribution on a higher scale was made to the Sinking Fund opened for the amortization of these loans. The increase I contribution together with the balance in the Fund (working up to 53,60) was invested in the 3 per cent. Defence Loan of the Central Government. This arrangement besides strengthening the financial position of Government, enabled the Province to assist the war effort.

The net liability of the Province on account of Public Debt, Unfunded Debt, etc., at the end of year was 12,60,77 as indicated in the statement given below:—

Assets.	Liabliities.				
Loans and Advances by Pro- vincial Government . 5,23,97	Public Debt 12,38,10				
vincial Government . 5,23,97 Investments of Famine Re- lief Fund, Sinking Funds	Unfunded Debt 4,37,89				
and Reserve Funds of Electricity Schemes 1,73,23	Deposits and Advances 7,28,50				
Balance. $ \begin{cases} \text{Investments} & & 3,49,16 \\ \text{Cash} & & & 1,05,87  \end{cases} $					
Total 11,52,23	Total . 24,13,00				
Net liability 12,60,77					

The net liability on the 31st March 1941 was 13,38,12 and judged by the decrease of 77,35 during the year, the general financial position of the Province should be deemed to have shown an improvement by that amount.

There were also commitments of Government to expenditure on capital works debitable outside the revenue account to the extent of 2,22,61.

Against these liabilities and commitments, the Province owns several remunerative irrigation and electrical works on which over Rs. 21 crores have been invested. Besides, there are various physical assets of the Province such as land, buildings and communications which have necessarily to be omitted from this review since their value cannot be properly assessed.

## B.—DEBT, DEPOSIT AND REMITTANCE ACCOUNTS.

#### I.—REPORT.

#### INTRODUCTORY.

- 1. Disbursements under debt, deposit and remittance heads, although involving temporary appropriations of Government funds, are not ordinarily regarded as expenditure within the meaning of sections 79 and 80 of the Government of India Act, 1935, and, except in a few specified cases, are not included in the schedule of authorized expenditure authenticated under section 80. It is, however, obviously essential to maintain a complete and progressive record of the debt, deposit, advance, suspense and remittance transactions as they cannot be ignored when considering the financial position of Government. The management of various receipts and disbursements under these heads constitutes a vital part of the machinery of financial administration. That record is found in this part of the report and its object is, in the first place, to give a complete enumeration of balances under debt, deposit and remittance heads and, in the second place, to review the current state of the accounts under each head.
- 2. Except where stated otherwise, the balances in this part of the report under each head have been duly verified and found to agree with those shown in the separate registers or other records maintained in the Account Office for the purpose in accordance with the prescribed rules, and have also been accepted as correct by the responsible officers concerned where necessary; and the debits and credits during the year to the various reserve funds and deposit accounts of grants, etc., were for amounts authorized by the relevant Acts or rules of the funds or accounts, and there were no diversions for purposes other than those for which the funds were constituted or the grants were made.

#### REVIEW OF BALANCES.

4. It must be clearly understood that the balances of accounts shown in the statement above are not, and cannot be, regarded as a complete record of the state of affairs or the net financial position of the Government of Madras as it is not possible to take into account all the various physical assets of the province such as land, buildings, communications, etc., for which complete statistics are not available and the exact value of which is difficult to estimate. This statement shows the balances of those accounts only for which separate running accounts are kept within the Government books.

The balances above are reviewed in detail in the following paragraphs:—

### SECTIONS A TO M.—GOVERNMENT ACCOUNT.

### Dr. Rs. 12,60,77,411

5. This is the general closing head in the ledger. Under the system of book-keeping followed in Indian Government Accounts, all balances which are not carried forward from year to year are closed to this head. It is also used as an adjusting head for the purpose of counterbalancing entries which have been included

elsewhere in the accounts. The balance under this head, therefore, represents the cumulative results of revenue, capital and other transactions in respect of which no separate progressive balanced accounts are kept. The account for the year is given in the following table:—

## SECTION N.—PUBLIC DEBT .. Cr. Rs. 12,38,10,555

7. The term "Public Debt" as used in this report is confined to regular loans raised from the public or taken from the Central Government and does not cover other obligations (whether bearing interest or not), such as Special Loans, State Provident Funds, Depreciation Reserve and other Funds, which are dealt with in Sections O and P of this report. A comparative statement, showing the aggregate gross capital liabilities of the Government of Madras on the 31st March 1942 and the capital and other disbursements which are treated as a set-off against these liabilities, will be found in Statement No. 2 of this part of the report,

"Public Debt" is ordinarily divided into three categories, namely, (a) "Permanent Debt," (b) "Floating Debt" and (c) "Loans from the Central Government." The term "Permanent Debt" covers such of the loans borrowed by Government in the open market as are intended to have, at the time when they are raised, a currency of more than twelve months. The term "Floating Debt" is applied to borrowings of a purely temporary nature, such as treasury bills or ways and means advances from the Reserve Bank of India, which are to be repaid within twelve months. These balances, which represent the nominal value of outstanding debt on 31st March 1942, as distinct from the cash proceeds in respect of the outstanding loans, are reviewed in the following paragraphs. Loans granted by the Central Government to the Government of Madras under section 163 (2) of the Government of India Act, 1935, are recorded under the head "Loans from the Central Government." The balance of the liabilities of the Government of Madras to the Provincial Loans Fund on 31st March 1937, which was left after all the adjustments had been made under the scheme for decentralization of the balances and the cancellation and consolidation of debt on the introduction of Provincial Autonomy, was transferred to this head on 1st April 1937.

The following are the details of the balances under "Public Debt":—

# Permanent Debt ....... Cr. Rs. 5,12,18,000

8. The statement below gives a detailed account of the loans so far raised by Government in the open market:—

. (In thousands.)

Description of loan.	Rate of interest.	Amount sub-scribed.	Opening balance on 1st April 1941.	Face value of bonds purchased out of Sinking Funds and cancelled during the year. (5)	charged	Balance of loan out- standing on 31st March 1942. (7)
1. Madras Govern- ment Loan of 1952.	3 pèr cent	2,33,54	2,26,01	3,55	••	2,22,46
2. Madras Government Loan of 1953.	3 per cent	1,51,29	1,46,65	2,30		1,44,35
3. Madras Govern- ment Loan of 1959.	3 per cent	1,50,00	1,47,62	2,25	**	1,45,37
Total '		5,34,83	5,20,28	8,10	** 1	5,12,18

The above three loans were raised by the Madras Government for financing Electricity Schemes, Productive Irrigation Works and grant of advances to local bodies, agriculturists, etc. The first loan was raised in two issues in 1937-38 and 1940-41, the second in 1938-39 and the third in 1939-40. They are repayable at par on 1st September 1952, 15th September 1953 and 21st June 1959. respectively. The Government of Madras provides, in each financial year of the currency of the loan, a sum equal to 11 per cent of the total nominal amount of the loan to be used for purchasing the securities of the loan for cancellation. The Government also makes such annual contributions to a sinking fund to provide for the amortization of its open market loans as it may from time to time decide to be necessary. In respect of the amounts utilized for relending to local bodies, agriculturists, etc., the Government has decided that they should be amortized by annual contribution beginning with the financial year after that in which each loan is issued and continuing throughout the period of currency of the open market loan from the recoveries realized from the local bodies, etc. The contribution is calculated on a sinking fund basis, with a rate of betterment equal to the nominal rate of interest on the open market loan.

The loans have been utilized for the purposes for which they were taken and the balance agrees with the balance in the books of the Public Debt Office, Madras.

# Loans from the Central Government .. Cr. Rs. 7,25,92,555

9. The balance under the head "Loans from the Central Government" outstanding on 31st March 1942 was Rs. 7,25,92,555. The debt is repayable over a period of 45 years commencing from 1937-38 in the form of half-yearly equated instalments (each instalment being fixed at Rs. 19,64,627) of principal and interest payable on the 15th September and 15th March of each year. The Government of Madras is however, subject to certain conditions authorized to redeem, on a date not earlier than the 1st April 1945 and not later than the 15th October 1946 to be fixed by the Governor General in Council, any part not exceeding one-half of the principal of the debt outstanding on the 31st March 1945 and further, on a date not earlier than the 1st April 1960 and not later than the 15th September 1961 also to be fixed by the Governor General in Council, the whole or any part of the remainder of the principal of the debt. The instalments were duly paid to the Central Government during the year 1941-42.

## SECTION O.—UNFUNDED DEBT .. Cr. Rs. 4,37,88,296

10. The term "Unfunded Debt" is used to describe a number of interest-bearing obligations of Government in respect of funds

deposited with it for various purposes. The principal classes of these obligations are—

				RS.
Special Loans	 	***	***	2,52,148

# Special Loans .. .. .. .. Cr. Rs. 2,52,148

11. Under this head is recorded a number of interest-bearing obligations, mostly of a permanent character, of which the following are the details:—

				RS.
8 per cent Perpetual Loans				1,33,000
6 per cent Perpetual Loans				10,500
Endowments for Charitable	and	Educat	ional	1,08,648
Institutions.				

Total .. 2,52,148

# Perpetual Loans .. .. .. Cr. Rs. 1,43,500

12. These are deposits made by private persons with the Government of Madras and accepted by that Government as perpetual loans. The interest is paid to the legal representatives and assigns of the original depositors for the maintenance of choultries at certain places. The details of these loans are as shown below:—

(1) Four bonds for Rs. 1,33,000 at 8 per cent interest issued

between the years 1796 and 1807.

(2) Two bonds for Rs. 10,500 at 6 per cent interest issued in the years 1795 and 1817.

# Endowments for Charitable and Educational

Institutions .. .. .. Cr. Rs. 1,08,648

- 13. These are endowments for charitable purposes accepted by the Madras Government from private persons in the past. The following are the details:—
  - (1) A perpetual agreement between Kolla Singanna Chetti and the Madras Government in 1817 that in respect of a sum of Rs. 41,770 paid by the former, the Government would pay interest at 6 per cent for the maintenance of certain choultries.
  - (2) A perpetual agreement between the trustees of the Native Infirmary (now Stanley Hospital) and the Madras Government that, in respect of a sum of Rs. 66,878 representing the endowment of the institution paid over to the Government, interest at 4 per cent would be paid to the trustees. The interest is now credited to Government under the head "Medical."

These loans are practically fixed and do not therefore require annual verification.

## State Provident Funds .. .. Cr. Rs. 4,35,36,148

14. These are funds established for the benefit of Government servants, contributions to which are, in certain cases, compulsory. Government pays interest on the sums deposited and, in some cases where the funds in effect represent substitutes for pensions, supplements the deposits by contributions. The accumulated deposits are paid to the depositors on the termination of their service with Government. Temporary withdrawals are, however, permitted in the interval in certain circumstances. The details of these funds are as shown in the following table:—

			RS.
General Provident Fund	**		3,89,77,665
Indian Civil Service Provident Fund			29,45,718

- The amounts at credit of the subscribers on 31st March 1942 have been communicated to them.

### General Provident Fund .. .. Cr. Rs. 3,89,77,665

15. Subscribers to this Fund include permanent Government servants in superior service except those who have been required or permitted to subscribe to a Contributory Provident Fund. They exclude members of the Indian Civil Service. Government servants in temporary superior service are also permitted to join this Fund on certain conditions. The ledger balance of this Fund on 31st March 1942 on the books of the Account Office has been compared with the sum total of the balances of the personal accounts of the subscribers to the Fund. This has disclosed a net difference of Rs. 5,259 of which an amount of Rs. 293 relates to 1940–41 and the balance of Rs. 4,966 to 1941–42. An amount of Rs. 15 relating to a difference of 1941–42 has been adjusted in 1942–43.

# Indian Civil Service Provident Fund .. Cr. Rs. 29,45,718

16. The balance under this head represents deductions made from the salaries of members of the Indian Civil Service which are funded for the benefit of the officers concerned. The balance has been verified and a difference of Rs. 156 noticed has been adjusted in 1942–43.

## Indian Civil Service (Non-European Members) Provident Fund . . . . Cr. Rs. 4,63,232

17. This Fund was established on 1st January 1931. It is open only to Non-European Members of the Indian Civil Service selected for appointment after that date. The balance has been verified and a difference of Rs. 89 noticed has been adjusted in 1942-43.

Contributory Provident Fund (Madras) .. Cr. Rs. 11,49,533

18. This Fund which is administered by the Madras Government was started for the benefit of certain non-pensionable Government servants under the control of that Government. The balance has been verified and a difference of Rs. 622 noticed is awaiting adjustment.

SECTION P.—DEPOSITS AND ADVANCES { Dr. Rs. 5,34,77,913 Cr. Rs. 7,40,89,744

25. The Madras Famine Relief Fund in its present form was set up under the Madras Famine Relief Fund Act, 1936, which came into force with effect from 8th October 1936.

According to the Act as amended by the Amendment Act of 1938, the assets of the fund consist of the securities of the Government of India purchased from the balance at the credit of the old Fund and the contribution from the revenues of the Province under the provisions of the Madras Famine Relief Fund Act, 1936. including securities of the Central Government or of the Government of Madras in which the balances not immediately required may be invested. Interest accruing from time to time on the investments is also credited to the fund. The Act provides that the securities

F

belonging to the fund should be valued at their market price on the 31st March of each year. Should the valuation in any year show that the balance in the Fund at the end of such year falls short of sixty lakhs of rupees, the deficiency has to be made up from the revenues of the Province, provided that if the deficiency exceeds five lakhs of rupees, it may be made up in annual instalments, the amount of each instalment except the last being not less than five lakhs of rupees. The balance in the fund may be expended only on relief of serious famine and distress caused by serious drought, flood or other natural calamities. If, however, the balance exceeds Rs. 40 lakhs, the excess may be utilized to meet expenditure on protective irrigation works and other works for the prevention of famine.

The account of the Fund for 1941-42 will be found in item III of Statement No. 4. The balance at the credit of the Fund on 31st March 1942 consisted of Rs. 9,800 in cash and Rs. 68,71,880 invested in securities of the Central Government. The face value of the securities held at credit of the Fund on 31st March 1942 amounted to Rs. 66,36,400 and the market value to Rs. 62,65,581. The value of the securities has been certified as correct by the Government of Madras after verification in consultation with the Reserve Bank of India, Madras.

## Provincial Road Funds .. .. Cr. Rs. 9,33,000

26. Additional grants are given to local bodies from Provincial Funds not exceeding the amount by which the actual sum available for distribution under the Madras Motor Vehicles Taxation Act falls short of the maximum contribution payable under the Act. The Government have created a Provincial Road Fund to which the balance of grants left undrawn out of the amount due for a particular year may be credited so that the amount may be available for use in subsequent years. The Fund was created during the year under report.

An account of the Fund for the year is given in item IV of Statement No. 4.

# FUND FOR THE DEVELOPMENT OF RURAL WATER-SUPPLY ...... CR. Rs. 21,36,510

27. The Fund was constituted during 1937-38 in order to secure that the programme for execution within a period of ten years of a comprehensive scheme of protected water-supply for household purposes in the rural areas of the province is not held up for want of funds. The Fund receives contributions from the revenues of the Province and from local bodies from time to time. The expenditure incurred on the scheme is debited to "39. Public Health," a corresponding amount being transferred from the Fund at the same time and adjusted in reduction of expenditure under the head "39." Certificate of acceptance of balance is awaited.

An account of the Fund for the year is given in item V of Statement No. 4.

REVENUE RESERVE FUND .. .. CR. Rs. 58,50,000

28. The Fund was created during the year 1940-41 and was credited with the surplus yield of certain commercial taxes after meeting the cost of their collection and the loss of revenue due to prohibition. Contribution to the fund has been discontinued with effect from 1941-42 under the orders of the Provincial Government. An account of the Fund for the year is given in item VI of Statement No. 4.

The balances under the heads mentioned above relate to (i) the Pykara Hydro-Electric System and (ii) the Mettur Hydro-Electric System and represent the amounts available for renewals and replacements consequent on ordinary wear and tear and for extraordinary and unforeseen renewals required from time to time. The balance at the credit of each fund is from time to time invested in the securities of the Government of Madras or of the Central Government. The interest received on the securities is taken as miscellaneous revenue of the systems. The face value of the securities has been verified and certified as correct by Government in consultation with the Reserve Bank of India, Madras. The accounts of the funds are furnished in items VII and VIII of Statement No. 4.

DEPRECIATION RESERVE FUND-GOVERN-

MENT PRESSES .. .. .. CR. Rs. 15,60,350

30. A Depreciation Reserve Fund was created for the Government Press on the introduction of a revised system of Press accounts from 1925–26. This Reserve is credited with depreciation calculated on the depreciated value of plant and machinery in use in the Press as also with the residual book value of plant and machinery disposed of during the year. Appropriations from the Reserve are made to meet the cost of replacement of the plant and machinery. The credits and debits under the head during the year under report have been shown in item IX in Statement No. 4.

These are mostly cash balances in the current accounts of local funds and other local authorities which are permitted to use the Government treasuries as their banks. Each fund has an administrator, either a public officer or a committee. The verification of the balances consists firstly, in reconciling the figures as between the broadsheets maintained in the Account Office and the ledger, and secondly in ascertaining how far the administrator accepts the balance standing at his credit on the Government books.

As regards the first stage of verification, necessary reconciliation has been effected and differences under the following heads have been noticed:—

				RS.
District Funds	 **	 		107
Municipal Funds	 	 	A	7,433

The differences have been adjusted in the accounts of 1942-43 except for Rs. 736 under Municipal Funds.

As regards the second stage of verification, certificates of acceptance of balances are still due in 10 cases under District Funds, 3 under Municipal Funds, and 1 under Village Panchayat Fund. In 17 cases under District Funds and 19 cases under Municipal Funds, the certificates received have not been accepted pending settlement of discrepancies. One certificate relating to 1940-41 under Municipal Funds is under reconciliation.

## CIVIL DEPOSITS .. .. .. CR. Rs. 2,39,14,806

33. The transactions brought to account under this head relate mainly to sums deposited with Government in the daily course of public business by or on behalf of members of the public. The following are the details:—

	RS.
Revenue Deposits	51,14,299
Civil Courts' Deposits	1,02,15,852

ciation	7,209
Deposits on account of moneys received for St. Dunstan's Hostel for Blinded Soldiers, Sailors	
and Airmen	937
Total	2,39,14,806

34. There are two entirely different systems of deposit accounts. The first may be called the detailed plan, in which every receipt is treated as a separate item and every payment charged against some particular receipt. The second is the ledger plan, that is, a running account is kept of receipts and payments on some particular account (an estate, an institution, etc.). To every ledger account there is an 'Administrator,' the person authorized to pay money into the treasury or draw it out. Deposits kept on the latter plan are termed 'Personal Deposits.'

The verification of the balance on the first plan is as follows:—
The receipts and payments, which are recorded in detail in deposit registers, are posted monthly by totals into a proof-sheet which provides columns for recording the repayments of deposits credited in the same year and in each of the three preceding years. At the end of the year, balances are struck upon the proof-sheet separately

for the different districts for each of the four years. The balance of the first year is usually written off the deposit account, as all balances unclaimed for more than three complete account years are ordinarily credited to Government. The aggregate balance on the proof-sheet is then agreed with the balance on the general books of the class of deposits concerned and finally reconciled with the plus and minus memoranda received from treasuries or, where necessary, with the accounts received from civil and criminal courts. The verification of the ledger form of deposit accounts consists mainly in agreeing the balance with that claimed by the administrator.

Revenue Deposits .. .. .. Cr. Rs. 51,14,299

35. The verification of the ledger balance with the proof-sheet has disclosed a discrepancy of Rs. 10,950 of which an amount of Rs. 9,057 has been adjusted so far in 1942-43 leaving a net balance of Rs. 1,893 for adjustment of which Rs. 161 relates to 1940-41.

Civil Courts' Deposits ... Cr. Rs. 1,02,15,852

36. The ledger balance has been verified in accordance with the prescribed rules and a net difference of Rs. 11,357 noticed, is being adjusted so far in 1942–43.

Criminal Courts' Deposits .. .. Cr. Rs. 86,303

37. A difference of Rs. 57 noticed between the ledger and the proof-sheet balances is pending adjustment.

Personal Deposits .. .. .. Cr. Rs. 45,70,289

38. The verification of the ledger balance with the proof-sheet balance has disclosed a difference of Rs. 454 which is being adjusted in 1942–43.

There were altogether 335 personal ledger accounts on the 31st March 1942 and the transactions during the year are shown below:—

No account was opened except with the sanction of competent authority. All the accounts were properly operated upon during the year and there was no debit balance in any of them. Certificates of acceptance are due from the administrators in 44 cases and 21 certificates are under reconciliation.

Seven certificates relating to 1940-41 are still under reconciliation. Public Works Deposits .. .. Cr. Rs. 33,89,921

39. The ledger balance under this head has been duly verified with the aggregate of the balances shown in the accounts of Public Works Disbursing Officers. The verification has revealed a difference of Rs 20,753 which is under reconciliation.

Trust Interest Funds .. .. Cr. Rs. 1,13,103

40. The balance under this head includes interest amounting to Rs. 32,560 on the securities held in trust on account of the Sinking Funds of the loans of the Madras Corporation which remained unpaid on 31st March 1942. This has been paid to the Corporation in 1942–43. The rest of the balance represents mainly the amount at credit of Charitable Endowment Funds and other local trusts. Certificates of acceptance of balances will be obtained from the Administrators after the accounts are audited by the Examiner of Local Fund Accounts and published in the Fort St. George Gazette. Four certificates relating to 1940–41 are still due.

A difference of Rs. 3,196 between the ledger and broad-sheet balances noticed under this head has been adjusted in 1942–43.

Deposits for Work done for Public Bodies or Individuals ..... Cr. Rs. 2,65,547

41. These represent moneys received in advance from municipalities or other bodies financially independent of Government for payment of compensation for land acquired for public purposes, etc. A difference of Rs. 782 between the ledger and the proof-sheet balance will be adjusted in 1942–43.

Unclaimed General Provident Fund Deposits. Cr. Rs. 58,512

42. The balance represents the amount in the above fund remaining unclaimed for a period exceeding six months and transferred to "Deposits" at the end of the year.

Deposits of fees received by Government Servants for work done for Private Bodies . . . . Cr. Rs. 28,313

43. The balance represents fees remaining unpaid to Government servants out of amounts deposited with Government in the account above. A difference of Rs. 55 between the ledger and the proof-sheet balance will be adjusted in 1942–43.

Deposits on account of moneys received for the Viceroy's War Purposes Fund Rs.64,521Deposits on account of moneys received for the Indian Red Cross Society and St. John Ambulance Association Cr. Rs. 7.209 Deposits on account of moneys received for St. Dunstan's Hostel for blinded soldiers, sailors and airmen ... 937 Cr. Rs.

44. These accounts were opened for depositing contributions received for the purposes detailed above, at places where there are no branches, sub-branches, or treasury pay offices of the Imperial Bank of India.

# OTHER ACCOUNTS .. .. .. CR. Rs. 6,69,700

#### Loans to Municipalities, Port Funds, etc. . Dr. Rs. 5,23,62,757

72. The ledger balances of individual loans falling under heads (1) (a) to (c), (f) and (g) "Miscellaneous Loans and Advances" where the detailed accounts of the loans are kept in the Account Office are agreed with the outstandings due from individual debtors, as worked out from the subsidiary loan registers maintained for the purpose, and the fulfilment of the conditions of these loans is watched by the Account Office. The detailed accounts of loans under (d) and (e) and of certain loans under (g) are kept by District Officers or other Administrative authorities, who are also responsible for realizing both the principal and interest. The ledger balances

under these heads are reconciled with the aggregate of the balances worked out in the broadsheets maintained in the Account Office and the latter are verified with the administrative balances certified by district and other responsible officers.

86. This head comprises two different kinds of transactions, one being remittance in actual cash between treasuries and departments rendering accounts to the same Account Office. Each separate remittance of this kind is watched through a remittance register. The transactions of the other class are purely book adjustments made within the accounts of the same Account Office, which are watched through separate registers maintained for the purpose,

The balances have been compared in each case with the remittance or subsidiary registers which revealed a net difference of Rs. 358 under item (2) and Rs. 128 under item (4).

A sum of Rs. 25 in respect of item (4) relating to 1940-41 is still awaiting adjustment.

#### Reserve Bank of India Remittances Dr. Rs. 11,107

87. A scheme was introduced by the Reserve Bank of India with effect from 1st October 1940 to standardize and extend remittance facilities throughout India and Burma. At places where the Reserve Bank has no offices of its own or is not represented by offices or branches of the Imperial Bank, the issue and payment of telegraphic transfers and drafts on Reserve Bank account is undertaken by Government treasuries and sub-treasuries as "Treasury Agencies" of the Bank, Receipts and payments taking place in treasuries on this account are accounted for under this head, and are initially carried against Government balances until cleared with the Bank through daily advices of drawings and encashments. The debits and credits booked under this head are ultimately cleared by corresponding adjustments under the head "Reserve Bank Deposits."

The outstanding balance is the result of a credit balance of Rs. 3,009 and a debit balance of Rs. 14,116 representing the balances of receipts and payments which could not be advised in time to the Reserve Bank of India for incorporation in the accounts of the year 1941-42 owing to the non-receipt of the relevant documents from the Treasury Officers concerned. These balances have since been cleared with the exception of a credit balance of Rs. 67-7-9 and a debit balance of Re. 0-4-9 which are

under reconciliation with the Treasury Officers concerned.

#### Adjusting Account between Central (Non-Railways) and Provincial Governments Cr. Rs. 4,100

88. The head records transactions between the Central Government and the Government of Madras requiring settlement through the Reserve Bank of India. The balance represents the

outstanding amount for which settlement could not be carried out in the Reserve Bank's accounts for the year 1941-42. The settlement of this balance has been carried out in the Bank's account for 1942-43.

#### Adjusting Account with Railways .. .. Cr. Rs. 13

89. The head records transactions arising in the accounts of the Madras Province adjustable against the balances of the Railways through the Reserve Bank of India. The balance rep esents the outstanding amount against the South Indian Railway for which monetary settlement could not be carried out in the Reserve Bank's accounts for 1941–42. The settlement of this balance has been carried out in the Bank's account for the year 1942–43.

#### Inter-Provincial Suspense Account .. Dr. Rs. 11,787

90. The head records transactions arising in the accounts of one Province which are adjustable against the balance of another through the Reserve Bank of India. The balance represents the outstanding amount against the Province of Orissa for which monetary settlement could not be carried out in the Reserve Bank's accounts for the year 1941-42. The settlement of the balance has been carried out in the Bank's account for the year 1942-43.
