The corpus of the Orissa Contingency Fund (established under the Orissa Contingency Fund Act., 1967) at the commencement of the year was Rs.2,00 lakhs. This was considered insufficient to meet emergent demand caused by drought and other unforeseen and emergent expenditure and an ordinance was issued on 19th October 1974 under Article 213 (1) of the Constitution raising the corpus of the Fund to Rs.5,00 lakhs; Rs. 3,00 lakhs were accordingly transferred from the Consolidated Fund to the Contingency Fund. Necessary funds to cover this transfer were obtained through the supplementary demand in December 1974. The Ordinance was laid on the table of the legislature on re-assembly of the session on 19th December 1974 but it was not replaced by an Act of the legislature; the Ordinance, therefore, ceased to be operative on the expiry of six weeks from 9th December 1974 and the corpus of the Contingency Fund stood reduced to Rs.2,00 lakhs. Rs.3,00 lakhs were transferred from the Contingency Fund to the Consolidated Fund.

(xiv) *Subventions from the Central Road Fund*—The additional revenue realised from the excise and import duties on motor spirit is credited to a fund constituted by the Government of India. From this fund, subventions are made to the State for expenditure on schemes of road development approved by the Government of India; the amount received as subvention is credited as grant received from the Government of India and an equivalent amount is transferred to a deposit account (subventions from Central Road Fund) by debit to “337—Roads and Bridges”.

The actual expenditure on the schemes approved by the Government of India is also initially booked in the revenue portion of this grant and subsequently transferred to the deposit account. Subvention of Rs. 16.07 lakhs was credited during 1974-75 and expenditure of Rs. 16.50 lakhs was incurred during the year.

The balance at the credit of the fund on the 31st March, 1975 was Rs.18.51 lakhs. An account of the fund for 1974-75 is given in statement no. 16 of the Finance Accounts 1974-75.

(xv) The percentages of establishment and tool and plant charges to works outlay in case of Public Works (Roads and Buildings) for the three years ending with 1974-75 are compared below :—

Year	Works Outlay (In lakhs of rupees)	Establishment charges (In lakhs of rupees)	Tools and Plant charges (In lakhs of rupees)	Percentage	
				Establishment charges to Works Outlay	Tools and Plant charges to Works Outlay
1972-73 ..	15,06.28	1,87.35	1,64.15	12.44	10.90
1973-74 ..	15,85.35	2,31.32	1,66.85	14.59	10.52
1974-75	17,37.32	2,69.65	1,14.72	15.52	6.60

(xvi) *Prorata distribution of establishment and tools and plant charges*—From 1967-68 a system of fixed percentage charges on account of establishment and tools and plant charges was introduced. The establishment charges at 10.5 percent and tools and plant charges at 4.5 percent of works expenditure are adjusted monthly by the divisions by debit to “459—Capital Outlay on Public Works”, “483—Capital Outlay on Housing” and “537—Capital Outlay on

Roads and Bridges" *per contra* credit to "259—Public Works—Direction and Administration and Machinery and Equipment" under which the gross expenditure on common establishment and machinery and equipment is recorded.

After carrying out the adjustment in the manner indicated above net charges on establishment of Public Works are calculated by deducting notionally 11 percent for establishment and 4 percent for tools and plant for works done for other Governments and local bodies, etc. This net amount is distributed *pro rata* among "259—Public Works," "283—Housing" and "337—Roads and Bridges" in proportion to works expenditure recorded under these major heads.

- (3) reassessment of requirement (Rs. 1,10.34 lakhs) ;
- (4) non-entertainment of full complement of regular and work-charged staff (Rs. 40.19 lakhs) ;
- (5) non-finalisation of tenders (Rs. 35.93 lakhs) ;

(a) Minus figure is due to affording credit to the head "Special Tools and Plant" by debit to the works.

(xii) *Pro-rata distribution of establishment and tools and plant charges of Irrigation branch of Public Works Department and Hirakud Dam project for 1974-75*:—From 1967-68 a system of fixed percentage charges on account of establishment and tools and plant among different wings of Public Works Department was introduced in lieu of the previous practice of *pro-rata* distribution of establishment and tools and plant charges. The cost of establishment mainly engaged for major irrigation projects is directly charged to projects. For medium irrigation projects, etc., establishment charges at the rate of 6 per cent and tools and plant charges at the rate of 3 per cent are adjusted every month by the divisions and included in the monthly accounts by debit to the heads concerned and credit to “Grant No. 20—333—Irrigation, etc.”

For Hirakud Dam Project establishment charges at the rate of 17.25 per cent and tools and plant charges at the rate of 3.5 per cent are adjusted every month by the divisions under Hirakud Organisation and included in the monthly accounts by debiting to “Grant No. 20—532—Capital outlay etc.—Hirakud Dam Project—Stage I and II” and credit to “Grant No. 20—332—Multipurpose river projects”.

(xiii) *Suspense transactions of the Public Works Department*:—The expenditure under the grant includes Rs. 9,07.11 lakhs booked under the minor head “Suspense”.

The minor head “Suspense” is not a final head of account. It is meant to accommodate certain interim transactions where further payments or adjustment of value are necessary before the transactions can be considered complete and finally accounted for; such transactions embrace both debits and credits. The demand for grants excludes the credits and is for the gross debits. The transactions are accounted for under four sub-heads viz, (a) purchases, (b) stock, (c) miscellaneous public works advances and (d) workshop suspense. The nature and accounting of the transactions under each of these four sub-heads are explained below:—

(a) *Purchases*—When materials are received from a supplier, another division or department for specific works or stock, the value of materials is credited to “Purchases” and the cost debited to work or stock as the case may be. When payment is made, the head “Purchases” is debited. The head “Purchases” thus shows a credit (negative) balance representing the value of stores received but not paid for.

(b) *Stock*—This is debited with the value of materials received for stock purposes. It is credited with the value of materials issued to works or transferred to another division or sold. A debit balance represents the value of materials in stock.

(c) *Miscellaneous Public Works Advances*—The debits represent (1) the value of stores sold on credit (2) expenditure incurred on deposit works in excess of deposits received, (3) loss of cash or stores and (4) sums recoverable from Government servants, etc. The debit balance under the head thus represents recoverable amounts.

(d) *Workshop Suspense*—The charges for jobs executed or other operations in the Public Works Department workshop are initially debited to this head pending their recovery or adjustment.
